MATT BARTOS

Ph.D. Candidate

@ mdbartos@umich.edu 4807078313 mattbartos.com linkedin.com/in/mdbartos github.com/mdbartos

GOAL STATEMENT

My goal is to build the next generation of **smart** urban water systems by combining my passion for water resources with the latest advances in low-power sensing, signal processing, and dynamic control.

AT A GLANCE

- Multidisciplinary focus combining embedded electronics, signal processing, control systems, and hydraulics/hydrology.
- Proven track record of research with 9 refereed publications in journals such as *Nature Climate Change* and *Scientific Reports*.
- Experienced in mentoring, lecturing, and developing innovative classroom curricula.
- Creator and maintainer of several popular open-source scientific libraries (3000+ downloads/month).

EDUCATION

Ph.D. in Civil Engineering

University of Michigan

Sept 2015 – Ongoing Ann Arbor, MI

- Thesis: *Advancing Urban Flood Resilience with Smart Water Infrastructure*

M.S. in Electrical and Computer Engineering

University of Michigan

Sept 2015 – Sept 2019 Ann Arbor, MI

- Focus in *Signal & Image Processing and Machine Learning*
- **Selected courses**: machine learning · estimation, filtering and detection · matrix methods · probability and random processes · linear systems theory

M.S.E. in Civil Engineering

University of Michigan

Sept 2015 – Sept 2019 Ann Arbor, MI

- Focus in *Intelligent Infrastructure Systems*
- **Selected courses**: control systems analysis and design · sensing for civil infrastructure · open channel flow · physical processes of land surface hydrology

B.S.E. in Environmental Engineering

Arizona State University

Sept 2007 – Dec 2013 Tempe, AZ

B.A. in English Literature

Arizona State University

Sept 2007 – Dec 2013 Tempe, AZ

DISTINCTIONS

Fellowships

- J. Robert Beyster Computational Innovation Fellow (2018)
- *Earth Science Information Partners* Community Fellow (2017)
- Henry Earle Riggs Fellow (2015)
- President's Scholarship (2007)

Grants

- Lab Incubator Awardee, *Earth Science Information Partners* (2018)
- Funding Friday Winner, *Earth Science Information Partners* (2017)

Professional Associations

- Media Relations Officer, *Chi Epsilon*, Arizona State University Chapter (2012)

Certifications

- Engineer-in-Training, State of Arizona (2014)

TEACHING & SERVICE

Graduate Student Instructor

University of Michigan

Sept 2018 – Dec 2018

- Lab instructor for *ENGR100: Robots, Sensors, and Smart Water.*
- Developed all lab curriculum and guided class projects.

Workshop Instructor

Open Storm Workshop

Aug 2017 & Aug 2019

- Taught firmware programming and web infrastructure at two workshops sponsored by the *Consortium of Universities for the Advancement of Hydrologic Science.*

Research Mentor

University of Michigan

Aug 2016 – Dec 2019

- Mentored 5 students through the *Undergraduate Research Opportunities Program.*
- Research projects focused on developing sensor firmware, web applications, and continuous integration services.

EMPLOYMENT

Research Scientist

Arizona State University

Dec 2012 – Aug 2015

Supervisor: Dr. Mikhail Chester

- Full-time researcher for the *Sustainable Urban Systems Lab*.
- Performed research in life-cycle assessment, climate modeling, hydrologic modeling, and risk analysis.
- Authored and published three articles in high-impact journals.

Lab Assistant

SILC Learning Support Services

June 2008 – Jan 2013

Supervisor: Dr. Andrew Ross

- Provided technical assistance to students in the *School of International Letters and Cultures* at Arizona State University.

SOFTWARE

pysheds
Simple and fast watershed delineation in python.

★ 173 ⑂ 50 👁 14

Available at:
`github.com/mdbartos/pysheds`

rrcf
Implementation of the *Robust Random Cut Forest* algorithm for anomaly detection on streams.

★ 91 ⑂ 31 👁 11

Available at:
`github.com/kLabUM/rrcf`

perfect-cell
General purpose firmware for cell-enabled PSoC motes.

★ 12 ⑂ 7 👁 5

Available at:
`github.com/open-storm/perfect-cell`

superlink
Implementation of the SUPERLINK hydraulic solver.

★ 4 ⑂ 1 👁 1

Available at:
`github.com/mdbartos/superlink`
